

**Ricardo Roa Barragan** currently holds the position of President of Ecopetrol, Colombia's largest company and parent company of one of Latin America's leading integrated energy groups. He holds a degree in Mechanical Engineering and a specialization in Engineering Management Systems from Universidad Nacional. He has more than 30 years of professional experience and is a recognized expert in the energy industry. Over the past 15 years he has held senior positions in energy and gas companies in Colombia, Peru, Guatemala, and Honduras. Throughout his career, he has spearheaded studies and initiatives in energy generation, unveiled efficiency projects, and led strategic transformations in companies in the industry. He previously served as Manager of Grupo Energía de Bogotá (GEB), President of Transportadora de Gas Internacional (TGI), and Manager of Empresa Energía de Honduras (EEH). He was also President of Termoeléctrica La Luna and General Manager of Celco S.A.S. During his extensive career, he has also served as Sector Director of Energy and Gas at Andesco; Commercial Manager of the energy trading company Cencol; General Manager of Electrificadora de Santander, and Energy Business Manager of the Organización Ardila Lülle. As President of Ecopetrol, his priority will be to lead a fair and sustainable energy transition, focusing on the company's operational and financial soundness to benefit all its shareholders and all Colombians.
